

Stylish waste solutions for companies

Bica indoor waste sorting

bica® FROM WASTE
— TO RESOURCES

Make waste sorting a part of everyday life

Bica has developed flexible waste solutions for sorting waste. A stylish and simple design with functional details make our waste bins easy to use. With Bica waste solutions, it will be simple to sort waste, and that's important so we can turn even more waste into resources.

Bica is designed in close cooperation with relevant players in the industry to create a product that target both public and private companies – right from seamless integration into interior design to easier emptying of the waste bins.

Experience how easy waste sorting can be with the right solution, that matches the needs.

FROM WASTE

TO RESOURCES

FROM WASTE
— TO RESOURCES

Bica Model 857

Bica Model 950

Bica Model 868 and 863

Waste isn't just a problem,
it's an opportunity.
We can turn plastic bottles into
new plastic products. Leftover food
into biogas and old paper
pulp into new products.
If we want.

Bica Model 953

It should be easy to sort waste
when we are at work.
Easily accessible and straight to.
Waste bins must not be hidden in
the corner. They must be integrated into
the interior like a piece of furniture.

Bica Model 829

Open inputs
2 × 65 + 1 × 95 Ltr.
85 × 101,9 × 30 cm

Bica Model 887

Open inputs/Lid
3 × 45 Ltr.
71 × 78,8 × 26,5 cm

Bica Model 950

Open inputs
2 × 65 + 2 × 45 Ltr.
85 × 101,9 × 30 cm

Bica Model 973

Open inputs/Pedal
3 × 65 Ltr.
85 × 89,3 × 30 cm

Flexible waste solutions for all needs

Bica waste sorting is a durable solution created for everyday use. Developed for the large office, the classroom, theater or shopping centre.

Waste sorting must be easy to use. Bica inner bins allow further division of waste. Our waste solutions are available in black and anthracite as standard with smooth surfaces for easy cleaning.

Bica Model 880

Bica Model 911

Wall mounted with lid
3×20 Ltr.
45×114×30 cm

Bica Model 912

Wall mounted with lid
3×15 Ltr.
45×86×30 cm

Front door with soft close
Thanks to front doors with soft close the waste bin can be emptied without heavy lifting. You achieve an ergonomically correct working position.

Flexible systems
The waste systems are mobile thanks to the hidden wheels. Combine them as needed by using strong magnets.

Integrated bag holders
Strong integrated bag holders make the bags easy to change and prevent them from slipping off. The lid hides the bags as well.

Bica Model 973

Match the color with the identity of the company.
Optional color at an additional cost.

Waste sorting must be easy

Help the employees to sort the waste with pictograms.

Pictograms are available as stickers or magnets in different colors. Get a more stylish look by using black pictograms.
