

# GUIDE FOR OUTDOOR Maintenance & cleaning

## General

Made of powder-coated steel with smooth surfaces. Ashtrays are made of stainless steel Aisi 304, and the tray under the ashtray is a hot-dip galvanized plate. Bica outdoor products meet corrosion class C3. The products require minimal maintenance and are easy to clean.

## Powder-coated surfaces

Clean with a fiber cloth or soft brush.  
If using a cleaning detergent, use a pH-neutral cleaning de-tergent.

## Ashtrays

Ashtrays are made of stainless steel Aisi 304. When cleaning ashtrays, use a cloth or soft brush with water. A mild cleaning detergent can be used for the ashtrays if necessary. The tray under the ash-tray is a hot-dip galvanized plate. Clean this with a cloth or soft brush using a mild and acid-free cleaning detergent.

## Bag holders

Bag holders are made of stainless steel Aisi 304.  
When cleaning bag holders, use a cloth or soft brush with water. If necessary, use a mild cleaning detergent.

**NB:** Avoid using scouring pads and powders, as well as solvent- and acid-containing cleaners for cleaning. We recommend checking nuts annually and retightening if necessary.
